- ❖ Micro Processor controller : 12V-2Ah
- ❖ Polycrystalline Solar Panel : 18V-20W
- ❖ Sealed Lead Acid battery : 12V-12Ah
   (full charge 8-10hrs per panel
- ❖ DC Output Socket : 12V/1.OA-6pcs
- ❖ 5V/500ma USB output socket : 2pcs
- ❖ Load : LED light, USB fan,Mini Radio,
   MP3, Moblie, Charger, Including 4pcs
   of 12V-2W LED lighting set (Bulb+wiring
   +socket)
- ❖ Working Temperature : -20C +55C
- ❖ Working Time : 4pcs x 2W LED bulbs
   last 5-7 hours with battery full charge
- ❖ Including one set of USB Multi-Plug for 10
   types of comman moblie phones
- ❖ Note : 12V-2W LED bulb = 10W flourcent tube
- ❖ 12V-3W LED bulb = 15W flourcent tube
   (Life span for LED bulb about 5000 hours)
- ❖ Important : The panel wire is 10m and MUST
   be connected to SOLAR IN input ONLY
- ❖ Never drain the battery untill finish. Always
   Keep the panel wire hooked to the SOLAR IN
   jack all the time
- ❖ LIFE span for the battery about 6-8 years if used
   according to our specification
- ❖ Panel Charging about 8 hours
   Important : This maintenance free equipments life
   span about 25 to 40 years if only used according
   to our instruction excpet the battery and bulb.
