

Ultra High Sensitive Antenna- Indoor & OutDoor

日本の製品は本物の品質を意味します。

Ultra High Sensitive (In-Door / Out-Door TV Antenna)

- * For Analogue TV/Digital TV/FM Radio reception.
- * Receiving Channel : VHF-L : 48.25 - 161.25 MHz
VHF-H : 160.25 - 464.00 MHz
UHF : 463.25 - 863.25 MHz
- * Frequency : 40 - 864 MHz
- * Receiving Signal Quality : - Depends on the adjustment of Telescopic Antenna which can be left or right, up & down of the VHF/FM Antenna for the best reception, within the TV/FM public Transmission Network area.
- * "Ultra High Sensitive Antenna" is an option equipment. TV/FM User can use their existing Roof-Top Antenna or Digital TV Receiving Box or Cable TV line for same programme viewing. However, this "Ultra High Sensitive" antenna is highly recommend for Out-door, Yacht, Fishing Boat, Fish Farm ... etc. for best receiving result.
